

WHO IS ONE GLOBAL DESIGN?

YOU ONLY NEED ONE.. ONE GLOBAL DESIGN.

Even in a globally connected world, there's a clear value in face-to-face relationships and business partners with boots on the ground, in your market.

And that's what you get with ONE Global Design.

INDIVIDUAL FIRMS COMING TOGETHER TO HELP CLIENTS LOCALLY AND NATIONALLY.

ONE Global Design's network lets you work with a design firm that's familiar with you and your company culture, in partnership with a local design firm that understands the nuances of the community where your project and people are located. This collaborative approach delivers design intelligence and accountable results with a single point of contact.

ONE Global Design is a network of principal-led design firms in the US, Mexico and Canada that works through a single point-of-contact.

THE POWER OF ONE GLOBAL DESIGN, THE KNOWLEDGE OF MANY.

Through the ONE Global Design network, we establish a direct line to your project by engaging a top design partner in the market where your project is located. You still maintain a single point of contact with your own local firm—no handing off or shuffling around.

ONE Global Design creates a bridge between your corporate culture and the community in which you are building.

TOGETHER,
We'd rank as the sixth* largest design firm in the country; separately, we rank at the top of our individual markets.

** As ranked by I.D. 2014*

ONE GLOBAL DESIGN BY THE NUMBERS:

- \$101.75 million in revenue
- 18 cities
- 500+ professionals
- 3 countries—US, Canada & Mexico
- Established in 2010
- 1 solution to serve your needs

WHY ONE GLOBAL DESIGN?

We are a partnership of 18 independently owned architectural and design firms across the US, Canada, and Mexico.

Like us – each firm is considered best-in-class in their own individual market.

WHAT IS THE BENEFIT TO THE CLIENT?

- We are able to help clients locally, nationally, and internationally. We have expanded our reach for clients that have needs in other markets.
- One consistent, single point of contact across all projects and offices. Someone who knows your brand, your vision, your philosophy, your standards. We are an extension of the client team. We help them juggle the many projects happening at once. We help them keep the project on track and on point.
- Every client account leader is a senior team member, a leader within their firm.
- Our clients have an opportunity to tap into 18 different firms with insights and trends that are happening in various industries and markets.

HOW IS ONE GLOBAL DESIGN DIFFERENT FROM LARGE FIRMS THAT ALREADY HAVE OFFICES ACROSS THE COUNTRY?

- Each client maintains their original point of contact. The person you work with now on a day-to-day basis will continue to be your point person. No handing off or shuffling around.
- Each firm is considered best in class in their local market. We are tapping into the strongest local resource available to build the best possible team for you.
- Each member firm is independently owned and operated. We are entrepreneurs and business owners. We are personally committed to do whatever it takes to ensure a successful outcome.
